Cost discipline enables continued investment in line with strategic priorities

In € bn, unless stated otherwise, year-on-year development

Noninterest expenses

Key drivers

- Incremental investments in technology enhancements, Private Bank operating model optimization, Wealth Management and IBCM hiring, and expansion of Corporate Bank solutions
- Operating efficiencies from workforce measures and target operating model improvements
- Impacts from Private Bank's India franchise and non-recurrence of litigation releases in the prior-year quarter¹

Deliberate actions driving 2026 provisions for credit losses

In € m, unless stated otherwise

—●— In bps of average loans annualized¹ - - - - In bps for LTM²

- Portfolio quality remains strong across all divisions with underlying performance in line with expectations
- Close monitoring of segments subject to economic and geopolitical risks; no material impacts observed to date
- Q2 provision for credit losses includes the impact of the decision to exit certain non-performing exposures, supporting portfolio de-risking while freeing up capital

CET1 ratio within operating range of 13.5-14.0%

In € bn

CET1 ratio¹

Movements in bps

Significant amount of loss-absorbing capacity

In € bn, as of June 30, 2026

€ 117bn TLAC stack¹

Loss-absorbing capacity

- Q2 2026 loss-absorbing capacity significantly above all regulatory requirements, with MREL remaining the most binding constraint
- Bank recovery and resolution framework was established after the 2008 financial crisis to safeguard the stability of the financial system
- Bail-in of liabilities as a key element to transfer arising losses (“failure or likely to fail” situation) to investors (not taxpayers)
- Objective: restore capital to ensure continued operation of critical functions without impacting depositors / counterparties ranking superior in the hierarchy

Continued positive rating momentum

As of August 10, 2026

	Moody's	S&P Global	Fitch Ratings
Bank ratings			
Bank rating ¹	A1	A	A+
Outlook	Stable / Positive ³	Positive	Positive
Short-term rating	P-1	A-1	F1

Deposits	A1	A	A+
Senior preferred ²	A1	A	A+
Senior non-preferred	Baa1	BBB	A-
Tier 2	Baa3	BBB-	BBB
Additional Tier 1	Ba2	BB	BB+

Key highlights

- Continued positive rating momentum, with all mandated rating agencies now on positive fundamental outlook
- Q2 developments with Fitch:
 - Positive outlook assigned in April based on stronger profitability and fundamentals
 - Maximum uplift under revised methodology rollout in May given very large resolution buffer

Creating value for shareholders and increasing distributions

Delivering promised shareholder distributions; accruing in-line with 60% payout ratio objective

Scaling the Global Hausbank

2028 strategic targets and objectives

- Revenue growth with strong contribution from focused growth areas, in particular from asset gathering in Private Bank and Asset Management
- Positive SVA, supported by decisive portfolio actions, such as continued reduction of sub-hurdle mortgages in Private Bank and redeployment of resources towards WM and within corporate lending
- Executing efficiency measures, including continued streamlining of Private Bank and Corporate Bank operating models and investing in AI to re-engineer core processes, such as corporate credit risk

Environment providing upside to 2028 targets

Upside trends

Structural reforms following German fiscal stimulus

Timing of impact: 2027+

Key developments

- Fiscal deployment gaining momentum across infrastructure and defense, with DB well positioned to benefit
- Reform agenda, including health, pension and 34-point plan, strengthening growth and competitiveness; DB is a trusted partner helping clients to navigate the reforms

Further & faster evolution of AI and related productivity gains

2027+

- Accelerating AI adoption creates opportunities for efficiency improvements as well as revenue growth via enhanced client coverage and related wallet share gains
- Clear potential for incremental productivity gains, including organization simplification accompanied by AI adoption

Savings and Investments Union

2027+

- Momentum building to transform European savings into investments, e.g. German pension reform, creating incremental opportunities for DB's asset gathering businesses
- Strong political commitment to advancing EU capital markets integration, incl. development of securitization framework

Regulatory environment conducive to growth

2027+

- EU policy points to increasing European banking competitiveness and simplification driving growth
- European Commission proposal addressing market concerns of unintended outcomes of CRR 3, including output floors, buffer usability, and capital and liquidity mobility across EU banks

The European Champion

European leadership across key segments

Market-leading returns

Deep and scaled global presence and network

AI-powered and innovation-focused bank

Loan development¹

Deposit development¹

Loan book composition

Deposit split

Key highlights

- Loans increased by € 5bn, or 1%, during the quarter:
 - Private Bank: growth in WM offset by targeted actions in select non-SVA accretive retail lending and reclassification of India franchise to 'held for sale' of € 3bn
 - Corporate Bank: growth driven by Trade Finance & Lending with continued expansion of SVA-positive portfolios
 - Investment Bank: sustained growth momentum in FIC Financing
- Deposits increased by € 12bn, or 2%, during the quarter:
 - Private Bank: deposit balances supported by underlying campaign inflows and Wealth Management growth
 - Corporate Bank: strong portfolio growth, particularly driven by sight deposit inflows in Corporate Cash Management

Derivatives bridge

Q2 2026, IFRS derivative trading assets and the impact of netting and collateral, in € bn

- Gross notional derivative exposure amounts are not exchanged and relate only to the reference amount of all contracts; it is no reflection of the credit or market risk run by a bank
- On DB's IFRS balance sheet, derivative trading assets are reported with their positive market values, representing the maximum exposure to credit risk prior to any credit enhancements
- Under IFRS accounting, the conditions to be met allowing for netting on the balance sheet are much stricter compared to US GAAP
- DB's reported IFRS derivative trading assets of € 276bn would fall to € 17bn on a net basis, after considering legally enforceable master netting agreements² in place and collateral received
- In addition, DB actively hedges its net derivatives trading exposure to further reduce the economic risk

Level 3 assets and liabilities

As of June 30, 2026, in € bn

Assets: € 27bn

Movements in balances

Liabilities: € 10bn

Movements in balances

- Level 3 is an indicator of valuation uncertainty and not of asset quality
- The Group classifies financial instruments as Level 3 if an unobservable element impacts the fair value by 5% or more
- The movements in Level 3 assets reflect that the portfolios are not static with significant turnover during the period
- Variety of mitigants to valuation uncertainty:
 - Uncertain inputs often hedged, e.g. in Level 3 liabilities
 - Exchange of collateral with derivative counterparties
 - Prudent Valuation capital deductions³ specific to Level 3 balances of ~€ 0.7bn

Group Trading Book Value-at-Risk (VaR)¹ and stressed Value-at-Risk (sVaR)¹

Sustainable and transition finance volumes

In € bn, cumulative (since 2020)²

Key achievements

- € 100m loan to a German electricity grid operator to finance substations, connectivity and charging infrastructure; more than 90% of revenues generated from sustainable activities
- Participated in € 3.0bn inaugural green bond for an APAC public transport operator, the largest euro-denominated green bond issuance in APAC; Deutsche Bank acted as Joint Global Coordinator, Joint Bookrunner and Joint Lead Manager
- Reconfirmed as a constituent of the Dow Jones Best-in-Class World and Europe Indices following the latest S&P CSA

Definition of certain financial measures and footnotes 1 / 2

Definition of certain financial measures

Post-tax return on average tangible shareholders' equity (RoTE)

The Group post-tax return on average tangible shareholders' equity (RoTE) is calculated as profit (loss) attributable to Deutsche Bank shareholders after deducting profit (loss) attributable to noncontrolling interests and additional equity components (AT1 coupon) as a percentage of average shareholders' equity and average tangible shareholders' equity, respectively; the AT1 coupons used in the calculation represent the amount of the estimated coupons to be paid to the AT1 instruments at the next payment date, as of the respective reporting period; profit (loss) attributable to Deutsche Bank shareholders after AT1 coupon for the segments is a non GAAP financial measure and is defined as profit (loss) excluding post tax profit (loss) attributable to noncontrolling interests and after AT1 coupon, which are allocated to segments based on their allocated average tangible shareholders' equity

Footnotes

Slide 3 – Germany's leading bank with global reach

1. Represents the sum of reported Private Bank (PB) AuM and Asset Management (AM) AuM; certain PB AuM are invested in AM products and are also included in AM's AuM as considered two distinct services

Slide 4 – Improving profitability together with higher share of predictable revenues

1. 31 December 2019

Slide 5 – Disciplined strategy execution delivers record H1 2026 results

1. Throughout this presentation post-tax return on average tangible shareholders' equity (RoTE) is calculated on net income after AT1 coupons as defined on slide 34; Group average tangible shareholders' equity: H1 2026: € 59.9bn; Group post-tax return on average shareholders' equity (RoE): H1 2026: 10.6%

Slide 6 – All divisions delivered a RoTE of 12% or higher

1. Post-tax return on average tangible shareholders' equity applying a 28% tax rate; RoE: Private Bank: H1 2026: 11.5%, Asset Management: H1 2026: 16.1%, Corporate Bank: H1 2026: 14.2%, Investment Bank: H1 2026: 14.0%
2. Improvement of Asset Management RoTE also impacted by equity re-allocations as outlined at the Investor Deep Dive 2025

Slide 7 – Strengthened revenue performance

1. Corporate & Other net commission and fee income (Q2 2025: € (6)m, Q2 2026: € (25)m) are not shown on this chart but are included in Group totals

Slide 8 – Cost discipline enables continued investment in line with strategic priorities

1. Excluding the impacts of close to € 100m related to the recently announced exit of the Private Bank's India franchise and around € 120m related to Q2 2025 litigation releases

Slide 9 – Deliberate actions driving 2026 provisions for credit losses

1. Quarterly provision for credit losses annualized as basis points of average loans gross of allowance at amortized cost
2. Last twelve months provision for credit losses as basis points of average loans gross of allowance at amortized cost

Slide 10 – CET1 ratio within operating range of 13.5-14.0%

1. Includes interim profit still subject to ECB approval
2. Represents net income attributable to DB shareholders

Slide 11 – Significant amount of loss-absorbing capacity

1. Total loss-absorbing capacity (TLAC) is the amount of equity and bail-in debt available to absorb losses in order to protect counterparties and depositors
2. Plain vanilla instruments and structured notes eligible for MREL

Slide 12 – Continued positive rating momentum

1. Defined as Issuer Rating (IR) at Moody's, Issuer Credit Rating at S&P and Issuer Default Rating at Fitch
2. Defined as senior unsecured debt rating at Moody's and S&P and senior preferred debt rating at Fitch
3. Stable outlook on issuer and senior unsecured debt rating, positive outlook on deposit rating

Slide 14 – Scaling the Global Hausbank

1. RWA excluding operational risk RWA
2. With 200 basis points distance to the Maximum Distributable Amount (MDA) threshold as a floor

Slide 18 – 2028 financial targets and capital objectives

1. With 200 basis points distance to the Maximum Distributable Amount (MDA) threshold as a floor

Slide 20 – Clear path to greater capital productivity

1. Excluding operational risk RWA

Slide 21 – Driving growth in most value-accretive areas

1. Includes select business units across Private Bank, Asset Management, Corporate Bank and the Investment Bank which have been grouped under Asset Gathering, Payments and Servicing and Advisory
2. Includes select business units across Private Bank, Corporate Bank and the Investment Bank which have been grouped under Global Fixed Income and Currencies markets and Debt Financing and Lending
3. Net flows excluding flows from Cash and advisory
4. Relates to Investment Banking & Capital Markets
5. Cumulative figures include sustainable and transition financing as well as ESG investment activities, as defined in Deutsche Bank's Sustainable Finance Framework, Transition Finance Framework, and ESG Investments Framework, all of which are published on the bank's website

Definition of certain financial measures and footnotes 2 / 2

Slide 23 – Balance sheet

1. Net balance sheet of € 1,198bn is defined as IFRS balance sheet (€ 1,521bn) adjusted to reflect the funding required after recognizing legal netting agreements (€ 216bn), cash collateral received (€ 34bn) and paid (€ 23bn) and offsetting pending settlement balances (€ 51bn)
2. High-quality liquid assets (HQLA)
3. Trading and related assets along with similar liabilities, includes debt and equity securities (excluding highly liquid securities), derivatives, repos, securities borrowed and lent, debt securities at amortized cost, brokerage receivables and payables, and loans measured at fair value
4. Loans at amortized cost, gross of allowances
5. Other assets include goodwill and other intangible, property and equipment, tax assets, cash and equivalents which are not part of liquidity reserve and other receivables. Other liabilities include accrued expenses, investment contract liabilities, financial liabilities designated at fair value through P&L excluding those included in trading and related liabilities

Slide 24 – Capital and leverage ratio requirements

1. Comprises of the minimum requirements for AT1 (1.5%) and T2 (2.0%) plus the pro-rate share of the Pillar-2 requirement
2. Includes interim profit still subject to ECB approval

Slide 25 – Liquidity

1. Liquidity coverage ratio and high-quality liquid assets based on weighted EUR amounts in line with Commission Delegated Regulation 2015/61 as amended by Regulation 2018/162
2. Preliminary Q2 2026 net stable funding ratio and available stable funding based on weighted EUR amounts in line with regulation 575/2013 as amended by regulation 2019/876

Slide 26 – Loans and deposits

1. Totals represent reported Group level balances whereas the graph shows only reported Corporate Bank, Investment Bank and Private Bank exposures for materiality reasons
2. Other Investment Bank businesses with exposure less than 4% each
3. Mainly includes Strategic Corporate Lending, Corporate Cash Management and Institutional Client Services
4. Other includes unsecured wholesale funding sourced by Treasury and hedge accounting effects

Slide 28 – Commercial Real Estate (CRE)

1. Based on Deutsche Bank's definition of non-recourse CRE loans as detailed in Annual Report 2025
2. Bespoke internal stress testing scenario on the bank's higher-risk non-recourse CRE portfolio, including US CRE
3. € 395m provision for credit losses for higher risk non-recourse CRE portfolio; € 402m provision for credit losses for total non-recourse CRE portfolio
4. Application of allowance for credit losses within LTV calculation results in weighted net LTV of 75% across US CRE Office; loan amount net of allowance / property value

Slide 29 – Derivatives bridge

1. Excludes real estate and other non-financial instrument collateral
2. Master netting agreements allow counterparties with multiple derivative contracts to settle through a single payment

Slide 30 – Level 3 assets and liabilities

1. Issuances include cash amounts paid / received on the primary issuance of a loan to a borrower
2. Includes other transfers into (out of) Level 3 and mark-to-market adjustments
3. Additional value adjustments deducted from CET1 capital pursuant to Article 34 of Regulation (EU) No. 2019/876 (CRR)

Slide 31 – Group Trading Book Value-at-Risk (VaR) and stressed Value-at-Risk (sVaR)

1. Timeline in the graph reflects the Trading P&L date whereas VaR/sVaR is as of the previous date for comparative purpose
2. Defined as actual income of trading units

Slide 33 – Sustainability strategy progress

1. Score ranges (best to worst): MSCI: AAA-CCC, S&P Global CSA: 100 to 0, CDP Climate Change: A to D-, Sustainalytics: 0 to 100 / Negligible to Severe Risks
2. Sustainable and transition financing and ESG investment activities as defined in Deutsche Bank's Sustainable Finance Framework, Transition Finance Framework, and ESG Investments Framework, all of which are published on Deutsche Bank's website

Cautionary statements

Forward-looking statements

This presentation contains forward-looking statements. Forward-looking statements are statements that are not historical facts; they include statements about our beliefs and expectations and the assumptions underlying them. These statements are based on plans, estimates and projections as they are currently available to the management of Deutsche Bank. Forward-looking statements therefore speak only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events

By their very nature, forward-looking statements involve risks and uncertainties. A number of important factors could therefore cause actual results to differ materially from those contained in any forward-looking statement. Such factors include the conditions in the financial markets in Germany, in Europe, in the United States and elsewhere from which we derive a substantial portion of our revenues and in which we hold a substantial portion of our assets, the development of asset prices and market volatility, potential defaults of borrowers or trading counterparties, the implementation of our strategic initiatives, the reliability of our risk management policies, procedures and methods, and other risks referenced in our filings with the U.S. Securities and Exchange Commission. Such factors are described in detail in our SEC Form 20-F of March 12, 2026 under the heading “Risk Factors.” Copies of this document are readily available upon request or can be downloaded from investor-relations.db.com

Non-IFRS financial measures

This presentation also contains non-IFRS financial measures. For a reconciliation to directly comparable figures reported under IFRS, to the extent such reconciliation is not provided in this presentation, refer to the Q2 2026 Financial Data Supplement, which is accompanying this presentation and available at investor-relations.db.com

EU carve out

Results are prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (“IASB”) and endorsed by the European Union (“EU”), including application of portfolio fair value hedge accounting for non-maturing deposits and fixed rate mortgages with pre-payment options (the “EU carve out”). Fair value hedge accounting under the EU carve out is employed to minimize the accounting exposure to both positive and negative moves in interest rates in each tenor bucket thereby reducing the volatility of reported revenue from Treasury activities. The application of the EU carve out version of IAS 39 had a negative impact of € 688 million on profit before tax and of € 496 million on profit after tax for the three-month period ended June 30, 2026, compared to a negative impact of € 535 million on profit before tax and of € 383 million on profit post tax for the three-month period ended June 30, 2025. The application of the EU carve out version of IAS 39 had a positive impact of € 166 million on profit before tax and of € 119 million on profit after tax for the six-month period ended June 30, 2026, compared to a negative impact of € 144 million on profit before taxes and of € 103 million on profit post taxes for the six-month period ended June 30, 2025. The Group’s regulatory capital and ratios thereof are also reported on the basis of the EU carve out version of IAS 39. As of June 30, 2026, the application of the EU carve out had a cumulative negative impact on the CET1 capital ratio of about 53 basis points compared to a cumulative negative impact of about 75 basis points as of June 30, 2025. In any given period, the net effect of the EU carve out can be positive or negative, depending on the fair market value changes in the positions being hedged and the hedging instruments

ESG Classification

Sustainable and transition financing and ESG investment activities as defined in Deutsche Bank’s Sustainable Finance Framework, Transition Finance Framework, and ESG Investments Framework, all of which are published on Deutsche Bank’s website. Given the cumulative definition of the sustainable and transition financing and ESG investment target, in cases where validation against the Frameworks cannot be completed before the end of the reporting quarter, volumes are disclosed upon completion of the validation in subsequent quarters. For details on ESG product classification of DWS, please refer to the section “Sustainability in Our Investment Approach and Our Product Suite – Our product suite” in the DWS Annual Report 2025
