Progress across strategic pillars provides confidence in 2025 delivery

Strategic execution focus

Delivering on agenda for 2025

- **Delivered € 0.7bn revenues in Q1** of promised € 2bn incremental revenue growth in 2025
- **Progressing on cost saving initiatives** to offset investments in businesses and inflation, driving flat operating costs for the full year
- **Reducing nonoperating costs**, with lower restructuring and litigation expenses
- Continuing to deliver capital optimization measures, with € 4bn RWA efficiency in Q1 achieved through a combination of data and process improvements, and a securitization transaction
- **Executing € 2.1bn announced capital return** through dividend and share buyback; **committed to outperform € 8bn target**²

Leadership

Recent actions taken

Deploying Shareholder Value Add (SVA) based planning and steering, driving decisions such as to reduce capital allocation to below hurdle retail lending, supported by closure of DSL brand

Expanding SVA framework to client-level in Corporate Bank and Investment Bank to drive improved return profile and resource optimization via range of measures including cross-selling, repricing and capital allocation

Additional programs launched to further enhance front-to-back processes in FIC and transform platform for Corporate Bank in Germany, aiming to improve client experience and efficiency via increased automation and technology simplification

Ongoing transformation in Personal Banking through organizational restructuring, branch footprint redesign and overarching digitalization with ~2,000 FTE reductions

Streamlined governance to accelerate decision making, such as ~50% reduction in committees & policies achieved to date; continued to embed "This is Deutsche Bank" framework with new collaboration incentive structure across divisions aimed to deliver revenue growth

Disciplined execution of management agenda to deliver excess shareholder returns in the next phase of Deutsche Bank's evolution

Leading franchise strongly positioned to support clients in dynamic environment

Divisional revenues

Key highlights

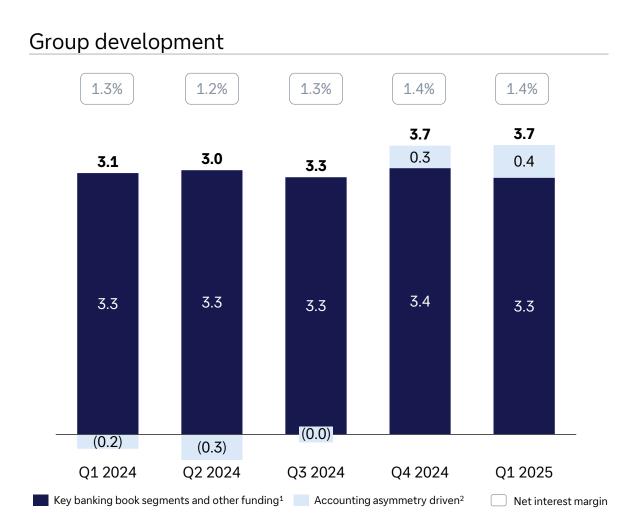

- > Financial performance in Q1 in line with the bank's broader objectives and targets
- Franchise momentum across businesses driving significant increase in revenues
- Cost discipline and a normalization of nonoperating costs delivered noninterest expenses in line with guidance for FY 2025; CIR below 65%
- > Profitability in Q1 underpins the path to deliver >10% RoTE target in FY 2025
- Strong positive net flows in a competitive market for Asset Management and the Private Bank

Key banking book segment¹ development

Adjusted costs – Q1 2025 (YoY)

In € m, unless stated otherwise

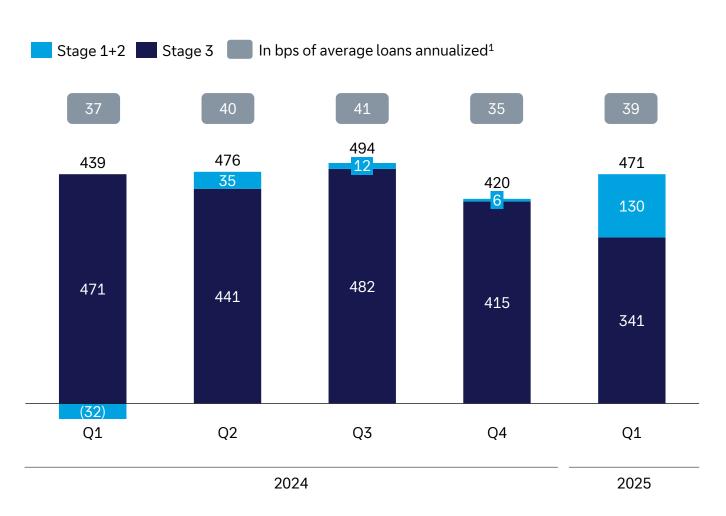

Key highlights

- Cost discipline maintained in Q1 with adjusted costs of € 5.1bn in line with expectations; excluding FX effects, adjusted costs ex-bank levies increased by only € 29m, essentially flat
- Compensation and benefits up 5% year on year; increase mainly driven by higher performance-related cash accrual and increased equity compensation costs from rising Deutsche Bank and DWS share prices in Q1

Provision for credit losses

In € m, unless stated otherwise

Key highlights

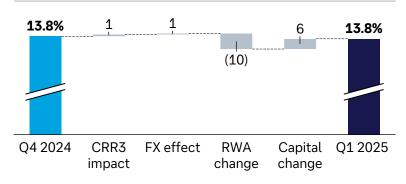

- Significantly lower Stage 3 provisions in line with guidance
- Stage 1 and 2 provisions elevated and include overlays for potential tariff-related impacts on FLI and selected higher risk names, as well as model-based and portfolio effects
- Portfolio quality overall stable; segments identified as more vulnerable to tariff risks closely monitored, potential second order economic and supply chain impacts are being assessed
- Stage 3 provisions expected to remain in line with guidance; Stage 1 and 2 outlook dependent on economic and geopolitical developments

Capital metrics

Movements in basis points (bps), unless stated otherwise, period end

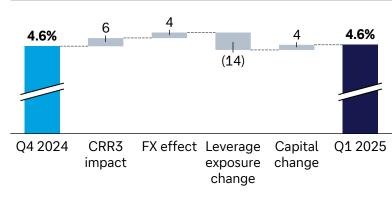

CET1 ratio

- CET1 ratio down by 2bps compared to Q4 2024:
 - 1bp increase from CRR3 change, driven by reduction in credit risk RWA, largely offset by increase in operational risk RWA and reduction in capital
 - 10bps decrease from RWA, mainly driven by higher market risk RWA, partly offset by credit risk RWA due to capital efficiency measures
 - 6bps increase from capital effects, principally from Q1 2025 earnings net of deductions for AT1 and dividends as well as other capital changes

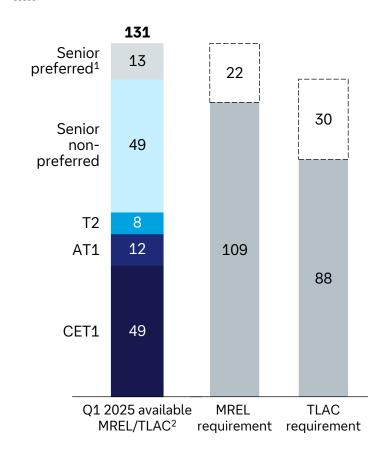

Leverage ratio

- Leverage ratio materially unchanged to Q4 2024:
 - 6bps increase from CRR3 change, as updated credit conversion factors result in lower leverage exposure for certain commitments
 - 14bps decrease from higher leverage exposure, principally driven by higher trading inventory and high-quality liquid assets
 - 4bps Tier 1 capital change, principally driven by CET1 capital movements, alongside net increase of € 0.3bn in AT1

Revenue performance

Key highlights

- Higher revenues year on year driving improvement in both RoTE and CIR
- FIC performance driven by strength in Rates and Foreign Exchange, reflecting heightened market activity and increased client engagement
- Financing revenues also higher due to increased NII from targeted balance sheet deployment and strong fee income
- O&A revenues lower due to the impact of a loss on a specific loan in LDCM; excluding this item, revenues increased 5% year on year on a like-forlike basis
- Significantly higher Advisory revenues year on year in a static industry fee pool⁵
- Provision for credit losses increase year on year driven by Stage 1 and 2 provisions, largely offset by a material reduction in Stage 3 impairments, including in CRE

Revenue and AuM performance

Key highlights

- Profit before tax rose by 43%, driven by revenue growth and cost reductions
- Revenues increased both sequentially and year on year, driven by strong performance in WM & PrB discretionary portfolio mandates
- PeB revenue development reflects higher revenues from deposit and investment products offset by intended run-off of capital-intensive loan products
- Continued good business momentum with net inflows of € 6bn, mainly in investment products in WM & PrB
- Costs continue to trend down, mainly reflecting benefits from transformation in PeB Germany
- Closure of additional 60 branches and further ~400 FTE reduction in the quarter; well on track to meet Germany optimization goals
- Underlying portfolio quality improved; provisions impacted by Stage 1 and 2, reflecting higher macroeconomic uncertainty

Revenue and AuM performance

Key highlights

- Positive revenue development from higher management fees due to increasing average assets under management combined with improvement in other revenues
- Significant improvement in profit before tax, up 67% year on year
- RoTE increased to 22.1%, an increase of 7.5ppt from Q1 last year
- Record net inflows of € 20bn in Q1 predominantly from Passive including Xtrackers and Cash products
- Private Credit partnership with Investment Bank to strengthen platform capabilities and product range

Outlook

Q1 2025 revenues in line with CAGR target of 5.5-6.5% even in uncertain environment, providing a strong step-off for our revenue ambition of ~€ 32bn in FY 2025

Cost discipline demonstrates clear path to deliver on CIR target of <65% for FY 2025

Maintain full-year CLP guidance, supported by reduction in Stage 3; uncertainty has increased due to the current macroeconomic outlook which may impact model-based Stage 1 and 2 provisions

On track to achieve >10% RoTE target in FY 2025; committed to outperforming total distribution target and set to deliver improving returns in the long term

Recent achievements

Sustainable Finance

Increased Sustainable Finance volumes by € 16bn to € 389bn¹ (cumulative since 2020)

- Corporate Bank acted as Mandated Lead Arranger in € 2.9bn non-recourse project financing for Polska Grupa Energetyczna S.A. ("PGE"); "Baltica 2" is the biggest offshore windfarm project currently planned in Poland with 1.5 GW developed jointly by PGE and Ørsted and will produce green electricity to meet the needs of around ~2.5m households
- Investment Bank (O&A) acted as Joint Lead Manager on ABN AMRO's 6-year EU Green Bond Senior Preferred, the first financial institution issuance compliant with the EU Green Bond Standard; proceeds are fully EU Taxonomy aligned for green buildings and renewable energy projects
- Investment Bank (FIC) acted as Sole Mandated Lead Arranger and Lender to the Republic of Benin in relation to an up to € 507m senior unsecured amortizing term loan facility, with a final maturity of 15 years; the loan, which benefits from a first loss / second loss guarantee structure provided by The International Development Association and the African Trade & Investment Development Insurance, leverages innovative financial instruments to support Benin's economic growth and social progress

- Internal and external publication of updated Summary Framework on Environmental and Social Due Diligence
- Announcement of Aviation as an eighth sector with a carbon pathway target for 2030 (interim) and a net zero target for 2050

People & Own Operations

- Disclosure of the 2024 Sustainability Statement as part of the Annual Report; it provides details on the progress of Deutsche Bank's sustainability strategy and goals
- Publication of stand-alone in-house ecology update for 2024, creating transparency around Key Performance Indicators
- The portfolio to compensate the carbon footprint from the bank's own operations for 2024 (scope 1, 2 and business travel) included durable carbon removal credits for the first time
- Launch of Global Men's Health initiative to encourage open communication and seeking help
- First place winner of the German company pension award (Deutscher bAV²-Preis 2025)
- Received award of ISO 30414 certification for Human Capital Reporting
- Revised Corporate Social Responsibility strategy published on db.com with a focus on education and environment, while continuing to supporting basic welfare programmes and offering employee engagement opportunities
- Deutsche Bank's score in CDP Climate Change remains stable at B/Management level, with A/A- scores achieved in 13 out of 17 scoring categories

- Deutsche Bank hosted its 3rd Annual Climate, Security and Technology Day in its new office in London; the conference included topics across energy transition and security, physical risk, transition and tariffs, Al and cybersecurity, payments and digital assets
- On World Water Day, the bank reaffirmed its commitment to support sustainable water solutions through partnerships with nongovernmental organizations (NGOs) such as Watershed Organisation Trust (WOTR) and the Centre for Collective Development (CCD)"
- Private Bank won two Euromoney Global Private Banking Awards 2025 in the category "Best for Sustainability" for Italy and for Spain

Loan development^{1,2}

Key highlights

- Loans increased by € 4bn, or 1%, during the quarter adjusted for FX:
 - Continued strategic growth in FIC Financing supported by the acquisition of a secured portfolio in Q1
 - Corporate Bank lending remains muted driven by ongoing macroeconomic headwinds
 - Further portfolio reviews and strategic reductions in Private Bank mortgage portfolio expected to foster efficient capital allocation

Deposit development²

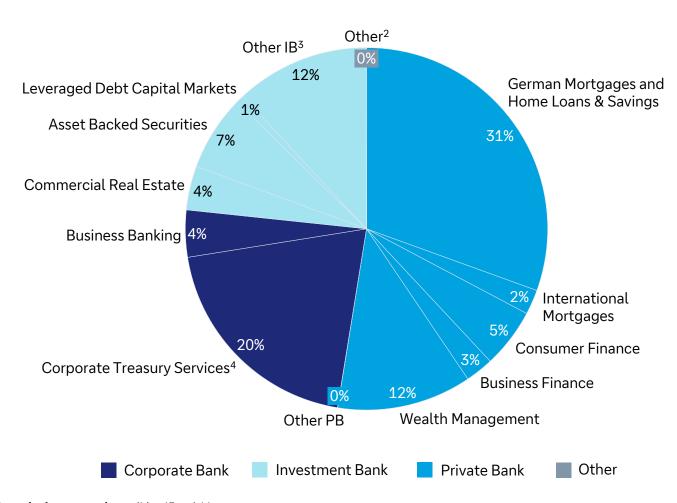

- Deposits increased by € 6bn, or 1%, during the quarter adjusted for FX:
 - Corporate Bank balances at strong levels while focus remains on identifying and serving clients needs
 - Underlying campaign inflows in German retail segment with further strategic growth potential in 2025

Loan book composition

Q1 2025, IFRS loans: € 482bn1

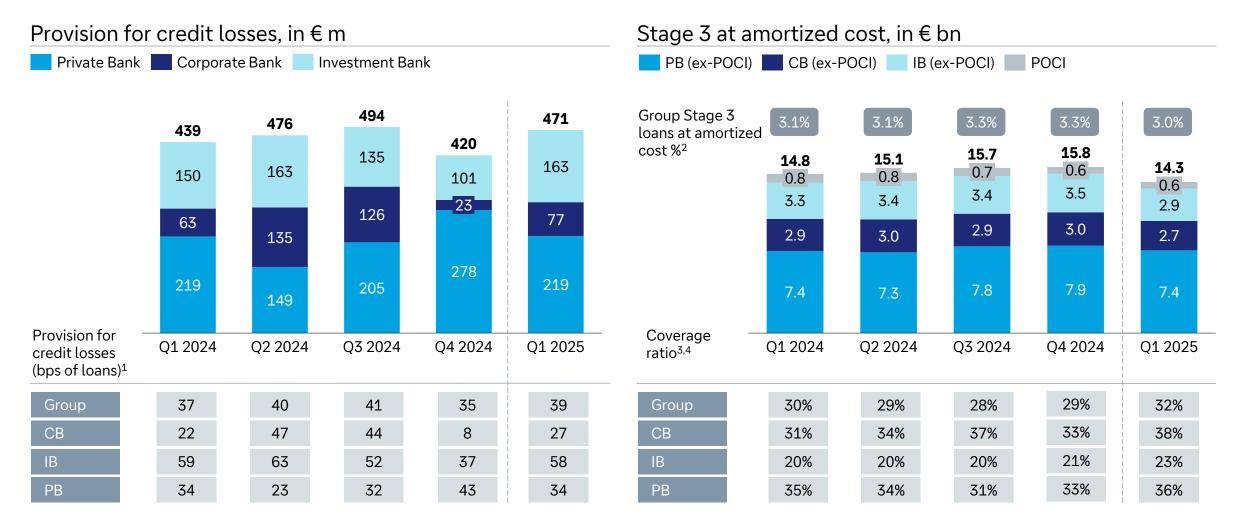

Key highlights

- 53% of loan portfolio in Private Bank, consisting of retail mortgages mainly in Personal Banking (Germany) and collateralized lending in Wealth Management & Private Banking
- 24% of loan portfolio in Corporate Bank, predominantly in Corporate Treasury Services (Trade Finance & Lending and Cash Management mainly to corporate clients) followed by Business Banking (various loan products primarily to SME clients in Germany)
- 23% of loan portfolio in Investment Bank, comprising well-secured, mainly asset backed loans, commercial real estate loans and collateralized financing; well-positioned to withstand downside risks due to conservative underwriting standards and risk appetite frameworks limiting concentration risk

Definition of certain financial measures

Adjusted costs

Adjusted costs are calculated by deducting (i) impairment of goodwill and other intangible assets, (ii) net litigation charges and (iii) restructuring and severance (in total referred to as nonoperating costs) from noninterest expenses under IFRS as shown on slide 41

Pre-provision profit

Pre-provision profit is calculated as reported net revenues less reported noninterest expenses as shown on slide 40

Operating leverage

Operating leverage is calculated as the difference between year-on-year change in percentages of reported net revenues and year-on-year change in percentages of reported noninterest expenses as shown on slide 40

Post-tax return on average tangible shareholders' equity (RoTE)

The Group post tax return on average tangible shareholders' equity (RoTE) is calculated as profit (loss) attributable to Deutsche Bank shareholders after Additional Tier 1 (AT1) coupon as a percentage of average tangible shareholders' equity. Profit (loss) attributable to Deutsche Bank shareholders after AT1 coupon for the segments is a non GAAP financial measure and is defined as profit (loss) excluding post tax profit (loss) attributable to noncontrolling interests and after AT1 coupon, which are allocated to segments based on their allocated average tangible shareholders' equity

Key banking book segments

Key banking book segments are defined as Deutsche Bank business segments for which net interest income from banking book activities represent a material part of the overall revenue

Slide 10 - Net interest income (NII) / Net interest margin (NIM)

- 1. Defined on slide 42
- Accounting asymmetry primarily arises from funding costs associated with trading positions where the funding cost is reported in net interest income
 but is offset by revenues on the underlying positions recorded in noninterest revenues. Conversely, it can also arise from the use of fair valued
 instruments to hedge key banking book segments positions where the cost or income of the underlying position is recorded as interest income, but the
 hedge impact is recorded as a noninterest revenue. These effects primarily occur in the Investment Bank (ex FIC Financing), Asset Management and
 C&O including Treasury other than held in the key banking book segments

Cautionary statements

Forward-looking statements

This presentation contains forward-looking statements. Forward-looking statements are statements that are not historical facts; they include statements about our beliefs and expectations and the assumptions underlying them. These statements are based on plans, estimates and projections as they are currently available to the management of Deutsche Bank. Forward-looking statements therefore speak only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events

By their very nature, forward-looking statements involve risks and uncertainties. A number of important factors could therefore cause actual results to differ materially from those contained in any forward-looking statement. Such factors include the conditions in the financial markets in Germany, in Europe, in the United States and elsewhere from which we derive a substantial portion of our revenues and in which we hold a substantial portion of our assets, the development of asset prices and market volatility, potential defaults of borrowers or trading counterparties, the implementation of our strategic initiatives, the reliability of our risk management policies, procedures and methods, and other risks referenced in our filings with the U.S. Securities and Exchange Commission. Such factors are described in detail in our SEC Form 20-F of March 13, 2025 under the heading "Risk Factors." Copies of this document are readily available upon request or can be downloaded from investor-relations.db.com

Non-IFRS financial measures

This presentation also contains non-IFRS financial measures. For a reconciliation to directly comparable figures reported under IFRS, to the extent such reconciliation is not provided in this presentation, refer to the Q1 2025 Financial Data Supplement, which is accompanying this presentation and available at investor-relations.db.com

EU carve out

Results are prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board ("IASB") and endorsed by the European Union ("EU"), including application of portfolio fair value hedge accounting for non-maturing deposits and fixed rate mortgages with pre-payment options (the "EU carve-out"). Fair value hedge accounting under the EU carve-out is employed to minimize the accounting exposure to both positive and negative moves in interest rates in each tenor bucket thereby reducing the volatility of reported revenue from Treasury activities. For the three-month period ended March 31, 2025, application of the EU carve-out had a positive impact of € 391 million on profit before taxes and of € 280 million on profit. For the same time period in 2024, the application of the EU carve-out had a positive impact of € 403 million on profit before taxes and of € 287 million on profit. The Group's regulatory capital and ratios thereof are also reported on the basis of the EU carve-out version of IAS 39. As of March 31, 2025, the application of the EU carve-out had a negative impact on the CET1 capital ratio of about 60 basis points compared to a negative impact of about 33 basis points as of March 31, 2024. In any given period, the net effect of the EU carve-out can be positive or negative, depending on the fair market value changes in the positions being hedged and the hedging instruments

ESG Classification

Sustainable financing and ESG investment activities are defined in the "Sustainable Finance Framework" and "Deutsche Bank ESG Investments Framework" which are available at <u>investor-relations.db.com</u>. Given the cumulative definition of the sustainable financing and ESG investment target, in cases where validation against the Frameworks cannot be completed before the end of the reporting quarter, volumes are disclosed upon completion of the validation in subsequent quarters. For details on ESG product classification of DWS, please refer to the section "Sustainability in Our Product Suite and Investment Approach – Our Product Suite" in DWS Annual Report 2024
