

Deutsche Bank Contingent Capital Trust IV

(a statutory trust formed under the Delaware Statutory Trust Act
with its principle place of business in New York/New York/U.S.A.)

Annual Financial Report 2016

pursuant to Section 5:25c of the Netherlands Financial Supervision Act (*Wet op het financieel toezicht*)

Management Report

Deutsche Bank Contingent Capital Trust IV (the “Trust”) was set up to issue Trust Preferred Securities, to issue a Trust Common Security to Deutsche Bank AG (the “Bank”) and to use all proceeds derived from such issuances to purchase Class B Preferred Securities issued by Deutsche Bank Contingent Capital LLC IV (the “Company”). Under the Class B Preferred Securities, the Trust is entitled to receive Capital Payments on the liquidation preference amount of €1,000 per Class B Preferred Security which are payable annually in arrears on May 15 of each year (subject to adjustments if this is not a business day, each a “Payment Date”). Capital Payments payable on each Payment Date will generally accrue from and including the immediately preceding Payment Date up to but excluding the relevant Payment Date at a rate per annum (the “Stated Rate”) as described in detail in the listing prospectus dated May 2, 2008 (the “Prospectus”).

At issuance, Capital Payments were cumulative, as described in the Prospectus. On October 9, 2008, the Bank notified the Company is making an election to treat all Class B Preferred Securities as consolidated Tier 1 regulatory capital. Pursuant to the LLC Agreement and as described in the Prospectus, the effect of such election is that (beginning with the first day of the Payment Period in which such election occurs) Capital Payments become non-cumulative and that the Trust Preferred Securities will be reclassified to the same extent. Therefore, Capital Payments are now non-cumulative as described in the Prospectus.

Capital Payments on the Class B Preferred Securities are generally paid out of the Company’s Operating Profits or from payments received by the Company under the subordinated guarantee given by the Bank in respect of the Class B Preferred Securities. If the Company does not declare (and is not deemed to have declared) a Capital Payment on the Class B Preferred Securities in respect of any Payment Period, the Trust as holder of the Class B Preferred Securities will have no right to receive a Capital Payment on the Class B Preferred Securities in respect of such Payment Period, and the Company will have no obligation to pay a Capital Payment on the Class B Preferred Securities in respect of such Payment Period, whether or not Capital Payments are declared (or deemed to have been declared) and paid on the Class B Preferred Securities in respect of any future Payment Period. Capital Payments on the Class B Preferred Securities will only be authorized to be declared and paid on any Payment Date to the extent that:

- the Company has an amount of Operating Profits for the Payment Period ending on the day immediately preceding such Payment Date at least equal to the amount of such Capital Payments, and
- the Bank has an amount of Distributable Profits for the next preceding fiscal year of the Bank for which audited financial statements are available at least equal to the aggregate amount of such Capital Payments on the Class B Preferred Securities and capital payments or dividends on Parity Securities, if any, pro rata on the basis of Distributable Profits for such preceding fiscal year.

The terms “Operating Profit”, “Distributable Profits” and “Parity Securities” are described in detail in the Prospectus.

During the fiscal year 2016, the Company made Capital Payments at the Stated Rate and the Trust received Capital Payments from the Company at such rate and when due under the LLC Agreement. As a consequence, under the Trust Agreement the Trust made Capital Payments on the Trust Preferred Securities at such rate at the scheduled date. The Trust made no payments or other distributions on the Trust Common Security.

Under the Services Agreement, the Bank is obligated, among other things, to provide legal, accounting, tax and other general support services to the Trust, to maintain compliance with all applicable U. S. and German local, state and federal laws, and to provide administrative, recordkeeping and secretarial services for the Trust. The fees and expenses of the Trust and all other obligations of the Trust will be paid by the Bank.

During the fiscal year 2016, the Trust received all such services and the Bank paid such fees, expenses and obligations as provided in the Services Agreement.

Outlook

The sources of Capital Payments by the Trust are payments by the Company on the Class B Preferred Securities. The Company has invested substantially all the proceeds from the issuance of its securities in the Initial Obligation issued by the Bank. Under the Initial Obligation interest is paid at the same rate and at the same dates as Capital Payments are scheduled under the Class B Preferred Securities. The Company is also a party to the Services Agreement with the Bank and receives similar services and payment of fees, expenses and obligations as the Trust. The Trust expects that the Company and the Bank will meet their respective obligations under the Class B Preferred Securities, the Initial Obligation, the Services Agreement and the other agreements made in connection with the Trust Preferred Securities.

Independent Auditors' Report

The Board of Directors and Stockholder
Deutsche Bank Contingent Capital Trust IV:

We have audited the accompanying consolidated financial statements of Deutsche Bank Contingent Capital Trust IV and its subsidiary, which comprise the consolidated statement of financial condition as of December 31, 2016, and the related consolidated statements of operations, changes in equity, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Deutsche Bank Contingent Capital Trust IV and its subsidiary as of December 31, 2016, and the results of their operations and their cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

DEUTSCHE BANK CONTINGENT CAPITAL TRUST IV

Notes to Consolidated Financial Statements

December 31, 2016

(1) Organization

Deutsche Bank Contingent Capital Trust IV (the Trust) is a statutory business trust created on May 15, 2008 under the laws of the State of Delaware. The Trust was incorporated for the sole purpose of issuing €1,000,000,000 of Trust Preferred Securities to investors and a €1,000 Trust Common Security to Deutsche Bank AG (DBAG). The proceeds from the issuance of the Trust Preferred Securities and the Trust Common Security were used to purchase all of the Class B Preferred Securities from Deutsche Contingent Capital LLC IV (the Company), a majority-owned consolidated subsidiary. The Trust does not engage in any business other than receiving and holding Class B Preferred Securities, issuing the related Trust Preferred Securities, collecting interest paid with respect to the Class B Preferred Securities, paying interest to the holders of the Trust Preferred Securities, and performing other obligations required under the Trust's Amended and Restated Trust Agreement dated May 15, 2008 (the Agreement). The consolidated financial statements and all transactions entered into by the Trust and the Company are denominated in Euros, the Trust's functional currency.

Capitalized terms herein have the same meaning as in the Agreement.

(2) Summary of Significant Accounting Policies

The accompanying consolidated financial statements have been prepared from the separate records maintained by the Trust, and may not necessarily be indicative of the consolidated statement of financial condition and consolidated statement of operations that would have existed if the Trust had been operated as an unaffiliated entity.

The Trust's consolidated financial statements are prepared in accordance with U.S. generally accepted accounting principles, which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expense during the reporting period. Estimates may vary from actual results.

The consolidated financial statements of the Trust include the Company. The Trust consolidates entities in which it has a majority voting interest when the entity is controlled through substantive voting equity interests and the equity investors bear the residual economic risks of the entity. The Trust consolidates those entities that do not meet these criteria when the Trust has significant variable interest(s) that provide it with (1) the power to direct the activities of the entity that most significantly impact its economic performance, and (2) the obligation to absorb losses of the entity or the right to receive benefits from the entity that could potentially be significant to the entity. All intercompany transactions and accounts have been eliminated.

Pursuant to Accounting Standards Codification (ASC) Topic 480, *Distinguishing Liabilities from Equity*, preferred stocks whose redemption is outside the control of the issuer are required to be presented separately from permanent equity. The Trust will be required to redeem the Trust Preferred Securities if DBAG elects to require redemption of the subordinated note receivable held by the Trust. Accordingly, the Trust Preferred Securities are therefore classified as outside of permanent equity and are presented as preferred securities subject to redemption in the consolidated statement of financial condition. The subordinated note receivable and trust preferred security are recorded at amortized cost.

DEUTSCHE BANK CONTINGENT CAPITAL TRUST IV

Notes to Consolidated Financial Statements

December 31, 2016

Interest income represents the payments received or receivable from the subordinated note receivable from DBAG and interest expense represents payments paid or payable from the issuance of preferred securities subject to redemption.

The Trust is a grantor trust and, as such, is a simple trust. Simple trusts must pass through all items of income and deductions to the grantor. Therefore, the Trust has no taxable income and no requirement to record a tax expense.

The Trust reports equity interests in the Company held by third parties, including related parties, as noncontrolling interests.

DBAG has agreed for the benefit of the holders of the Trust Preferred Securities, to guarantee, on a subordinated basis, that certain payments of the Trust Preferred Securities are made if and when they are due and payable.

Fair Value Measurement and Disclosures

The fair value hierarchy under ASC Topic 820, *Fair Value Measurement*, prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|---------|---|
| Level 1 | Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities |
| Level 2 | Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly |
| Level 3 | Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable |

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

(3) Preferred Securities Subject to Redemption

On May 15, 2008, the Trust issued €1,000 million of Trust Preferred Securities which have no stated maturity. Holders of the Trust Preferred Securities will receive interest payments, on a noncumulative basis, annually in arrears on May 15 of each year, commencing May 15, 2009, at a fixed rate equal to 8.00% per annum. Interest payments will be paid to the extent that the Trust has funds available from interest earned by the Company, a majority-owned consolidated subsidiary.

DEUTSCHE BANK CONTINGENT CAPITAL TRUST IV

Notes to Consolidated Financial Statements

December 31, 2016

(4) Tier I Qualification Election

The Preferred Securities Subject to Redemption (as described above in note 3), issued by the Trust on May 15, 2008, were issued in the form of "contingent capital." The issuance of contingent capital allows DBAG a qualification election (the Tier 1 Qualification Election), which at any time prior to the fifth anniversary of the Issue Date (May 15, 2013), DBAG has the option to convert a percentage (in increments of 20%) of each and every Trust Preferred Security from Tier 2 Capital to Tier 1 Capital for purposes of the Bank for International Settlements capital ratio calculation. As a result of the Tier 1 Qualification Election, the Capital Payments (as defined in the Agreement) were modified from cumulative to noncumulative Capital Payments from the date of the election on a prospective basis.

On October 10, 2008, DBAG elected to make the one time Tier 1 Qualification Election as more fully described above. Accordingly, the Capital Payment structure was modified from cumulative to noncumulative as of the date of the election.

(5) Variable Interest Entities

ASC Topic 810, *Consolidation*, requires a company to consolidate entities as the primary beneficiary, when the equity investors lack essential characteristics of a controlling financial interest, if the company has (1) the power to direct the activities of the entity that most significantly impact its economic performance, and (2) the obligation to absorb losses of the entity or the right to receive benefits from the entity that could be significant to the entity. The Trust has identified its investment in the preferred securities issued by the Company to be variable interests and considers itself as the primary beneficiary, resulting in the consolidation of the Company.

(6) Related-Party Transactions

Related-party transactions consist of the subordinated note receivable dated May 15, 2008, which is with DBAG, an affiliated entity. The note is in the amount of €1,000,001,000 and is perpetual which means it will not have a maturity date. The note bears interest at a fixed rate equal to 8.00% per annum from May 15, 2008. All interest earned on the note is passed through to the holders of the Trust Preferred Securities in the form of interest payments.

The subordinated note receivable shall not be redeemable by DBAG except upon the occurrence of a Tax Event, a Regulatory Event or Investment Company Event (as defined in the Agreement). If DBAG redeems the subordinated note receivable, the Trust must redeem the Trust Preferred Securities under the redemption terms as stated in the Agreement. Any redemption of the Trust Preferred Securities, in whole or in part, will be at an aggregate liquidation amount equal to the aggregate Liquidation Preference Amount (as defined in the Agreement) of the Class B Preferred Securities purchased or redeemed for an amount equal to €1,000 per Trust Preferred Security and an amount equal to €1,000 per Trust Common Security, plus any additional amounts, if any, plus any accrued and unpaid Capital Payments (as defined in the Agreement) for the then current Payment Period (as defined in the Agreement) to, but excluding the date of redemption. In the case of redemption upon the occurrence of a Company Special Redemption Event (as defined in the Agreement), after satisfaction of the claims of the creditors of the Trust, if any, Class B Preferred Securities would be distributed on a pro rata basis to the Holders of the Trust Preferred Securities and the Holder of the Trust Common Security in liquidation of such Holder's interest in the Trust.

DEUTSCHE BANK CONTINGENT CAPITAL TRUST IV

Notes to Consolidated Financial Statements

December 31, 2016

In the event of any voluntary or involuntary liquidation, dissolution, winding up or termination of the Trust, the holders of the Trust Preferred Securities at the time outstanding shall, subject to certain limitations, be entitled to receive (a) the Company Capital Securities in an aggregate stated liquidation preference amount (as defined in the Agreement) on such Trust Preferred Securities and (b) pro rata based on the respective liquidation preference amounts of the Trust Preferred Securities, any other assets of the Trust.

A Tax Event means (A) the receipt by DBAG of an opinion of a nationally recognized law firm or other tax adviser in the United States or Germany, as appropriate, experienced in such matters, to the effect that, as a result of (i) any amendment to, or clarification of, or change (including any announced prospective change) in, the laws (or any regulations promulgated thereunder) of the United States or Germany or any political subdivision or taxing authority thereof or therein affecting taxation, (ii) any judicial decision, official administrative pronouncement, published or private ruling, regulatory procedure, notice or announcement (including any notice or announcement of intent to adopt such procedures or regulations) (an "Administrative Action") or (iii) any amendment to, clarification of, or change in the official position or the interpretation of such Administrative Action or any interpretation or pronouncement that provides for a position with respect to such Administrative Action that differs from the theretofore generally accepted position in each case, by any legislative body, court, governmental authority or regulatory body, irrespective of the manner in which such amendment, clarification or change is made known, which amendment, clarification or change is effective, or which Administrative Action, pronouncement or decision is announced, on or after the date of issuance of the Company Securities and Trust Preferred Securities, there is more than an insubstantial risk that (a) the Trust or Company is or will be subject to more than a *de minimis* amount of taxes, duties or other governmental charges, (b) the Trust, the Company, an obligor on the Obligations, or the Guarantor would be obligated to pay Additional Amounts, Additional Interest Amounts or Trust Preferred Guarantee Additional Amounts or Class B Preferred Guarantee Additional Amounts, as applicable, or (c) DBAG would be subject to tax on income of the Company under the rules of the German Foreign Tax Act except in cases where the Capital Payments may not be declared by the Company or (B) a final determination has been made by the German tax authorities to the effect that DBAG, as obligor on the Obligations, may not, in the determination of its taxable income for the purposes of determining German corporate income tax in any year, deduct in full interest payments on the Obligations (except to the extent such interest payments are determined to be connected with income of a branch that is not subject to taxation in Germany). However, none of the foregoing shall constitute a Tax Event if it may be avoided by DBAG, the Trust or the Company taking reasonable measures under the circumstances.

A Regulatory Event means that DBAG is notified by a relevant regulatory authority that, as a result of the occurrence of any amendment to, or change (including any change that has been adopted but has not yet become effective) in, the applicable banking laws of Germany (or any rules, regulations or interpretations thereunder, including rulings of the relevant banking authorities) or the guidelines of the Committee on Banking Supervision at the Bank for International Settlements, in each case effective after the date of the issuance of the Company Securities and the Trust Preferred Securities, DBAG is not, or will not be, allowed to treat (i) the Upper Tier 2 Percentage of the Class B Preferred Securities, if any, as supplementary capital or upper Tier 2 regulatory capital or (ii) the Tier 1 Percentage of the Class B Preferred Securities, if any, as core capital or Tier 1 regulatory capital, in each case of DBAG, for capital adequacy purposes on a consolidated basis.

An Investment Company Event means that DBAG shall have requested and received an opinion of a nationally recognized U.S. law firm, experienced in such matters, to the effect that there is more than an

DEUTSCHE BANK CONTINGENT CAPITAL TRUST IV

Notes to Consolidated Financial Statements

December 31, 2016

insubstantial risk that the Company or the Trust is or will be considered an “investment company” within the meaning of the Investment Company Act of 1940, as amended, as a result of any judicial decision, any pronouncement or interpretation (irrespective of the manner made known), the adoption or amendment of any law, rule or regulation, or any notice or announcement (including any notice or announcement of intent to adopt such law, rule or regulation) by any U.S. legislative body, court, governmental agency, or regulatory authority, in each case after the date of the Agreement.

DBAG, an affiliated entity, pays all administrative expenses incurred by the Trust and the Company. In addition, DBAG and the Company have entered into a guarantee for the benefit of the Trust and the holders of the Trust Preferred Securities.

The Common and Class A Preferred Securities of the Company are held by DBAG and are reported as noncontrolling interests.

(7) Fair Value of Financial Instruments

The following are the estimated fair values of the Trust’s financial instruments recognized on the consolidated statement of financial condition based on present value estimates of contractual cash flows and independent market quotes:

	<u>December 31, 2016</u>	
	<u>Carrying amount</u>	<u>Fair value</u>
Subordinated note receivable	€ 1,000,001,000	1,049,635,000
Preferred securities subject to redemption	1,000,000,000	1,049,635,000

The preferred securities subject to redemption would be classified within Level 2 of the fair value hierarchy as the Trust’s estimation of the fair value of these preferred securities is based upon quoted prices, or quotes of similar instruments, in markets that are not considered to be active. The relevant terms of the subordinated note receivable are identical to the terms of the preferred securities subject to redemption, except for stated maturity date and notional amount, and the Trust would be required to redeem the preferred securities subject to redemption if DBAG elects to redeem the subordinated note receivable. Therefore, a reasonable estimate of the fair value of the subordinated note receivable is represented by the fair value of the preferred securities subject to redemption and the subordinated note receivable would also be classified within Level 2 of the fair value hierarchy.

(8) Subsequent Events

The Trust has evaluated subsequent events for the period from December 31, 2016 to March 31, 2017, the date which the accompanying consolidated financial statements were issued. No such events required recognition or disclosure in the financial statements for the year ended December 31, 2016.

Responsibility Statement by the Regular Trustees

To the best of our knowledge, and in accordance with the applicable reporting principles, the financial statements of Trust give a true and fair view of the assets, liabilities, financial position and profit or loss of Trust, and the management report of Trust includes a fair review of the development and performance of the business and the position of Trust, together with a description of the principal opportunities and risks associated with the expected development of Trust.
